## TESTIMONIALS

I cannot say enough about Jill Eggleton's Key links Big Books! The kids love the fantastic stories and the bright and funky illustrations. As a teacher who is passionate about literacy, these books could not be easier to use in my room. The day by day notes allow you to take your class deeper into the features of the book which leads to them enjoying the book that much more! Since using these books in my New Entrants class I have noticed a huge jump in the achievement of my kids. They love getting out the books and reading them to each other and it's great to hear them using the questions that I have used with them on each other. The books have really made reading come alive in the room. We love acting out the different parts of the book and using our 'creative clusters'. It is such an awesome resource for all schools. Jill has managed to put the spark back into Big Books!

I guess we've been a bit spoilt with having lots of Jill's books here, but it was definitely the Key Links that made the difference as I saw the comprehension and word knowledge sky rocket after starting these with him. As a parent I've just found them invaluable - giving me the 'know how' to help Jack learn to read. It's very satisfying to have a part in it and to see the results.
